Yet, notwithstanding the fact that this ambitious town has always been deprived of the advent. Since the first announcement was made, three years ago, by Hon. C. R. Mitchell, gone on enlarging its borders and gathering to itself from distant states, as well as from our own commonwealth, a class of industrious citizens who will yet be heard from. The place is incorporated, and, together with Sait City, located but a hair mile away, has a population of four or five hundred. From my observations since coming here and also from reliable reports, I am convinced that these springs possess remarkable healing properties, particularly for rheumatism and all diseases of the stomach, liver and kidneys. It is not at all uncommon for patients to be brought here unable to walk, on account of rheumatism of long standing, and go away in a few weeks comparatively well. A very rapid improvement is noticeable in nearly every spid since the prisoner and hanged him to a tree.

improvement is noticeable in nearly every invalid who comes, so much so that those who have given the springs a fair trial have great confidence in their efficacy. There are at present about one hundred and lifty patients here, some coming from as far as Indiana purposely to try these waters. If properly advertised these springs would soon become the resort of thousands of invalids and I believe it would pay them to come. city introducing and offering for sale, what he called a "rescrection plant." It is a small plant that spreads out just above the root like moss, is of a green color and resem-bles a sponge. It grows in Yucatan and New Mexico, is not affected by wet or dry. heat or cold, and it is claimed that it never dies, but lives ever green and blooms once every four years. What an appropriate article it would be for the Democratic party to keep in stock. They could plant it over the political gewes of their defeated candidates and it would keep them ever green. It would bloom just as the inspiration and hope had seized upon the party and caused their zeal to nominate a candidate, and then when they would go down in the fall the though the green would live forever upon their graves.

Washington Notes.

Washington, Oct. 21.—Some ten days ago Everett P. Wheeler, counsel for the civil service reform association, of New York, sent a communication to President Arthur, stating that Col. Dudley, commissioner of pensions, was absent from his post and conducting a canvass for the Republican party in Ohio to the entire neglect of his official duties, and furthermore, that he had given orders that applications for pensions filed by voters residing in Ohio and Indiana be taken up out of their order of filing and have preference in their examination over those filed by persons residing in any of the other states. The president referred the letter to the acting secretary of the interior, who in turn sent it to O. G. G.
